

MIM GREY

“CHRISTMAS KISS”

Released on Right Track through Universal, available by download only

There are Christmas singles....and there are Christmas singles. There's those cloyingly schmaltzy ones, those childishly cheeky ones and those downright delightful ones.

Luckily Mim Grey's "**Christmas Kiss**" falls into the latter category and, even better, Radio Two have jumped on board and playlisted it.

Delightful, quirky and lilting with a pop/countryish flavour that drives along, "**Christmas Kiss**" is everything you'd want from a great Christmas single.

But it's not just the UK that has taken this glamorous singer to their heart. In the States the single is already riding high in various charts including being

- No 1 in the Most Added Top 40 National chart
- No 5 in the Most Added American Contemporary Top 40 chart
- No 5 in the Chartbound Debut Billboard chart
- No 12 in the Mainstream Independent American chart
- No 18 in the Hot American Independent chart
- No 81 in the Billboard Hot 100

"**Christmas Kiss**" has been playlisted on 32 US stations while KYDL has chosen it as one of their six songs, alongside Patti Austin and Nat King Cole, to go on their e-card to the troops.

Of course Mim Grey's no stranger to a good song. She has worked with luminaries across the globe including **Sir Paul McCartney**, **Kylie Minogue**, **Michael Ball** and **Dave Stewart**. She's co-written a Kylie Minogue track and had a Top 10 single with **Mantronix** plus a club hit with **Lee Cabrera**. Her version of "**What A Difference A Day Makes**" spearheaded the Thomas Cook Christmas advertising campaign.

Her new album, "**Grey Matters**", a beautiful 12 track CD that evokes echoes of Joni Mitchell and James Taylor, shows just what a talent she really is. Along with her song-writing partner Cori Josias she conjures up a life of high heels, blue jeans and love lost and found...very much her own story.

At times too familiar with the drink/drugs lifestyle of the rock 'n' roll world, and having lost her partner to cancer, Mim turned her life around and utilised her experiences to produce this stunning heart-on-her-sleeve album.
